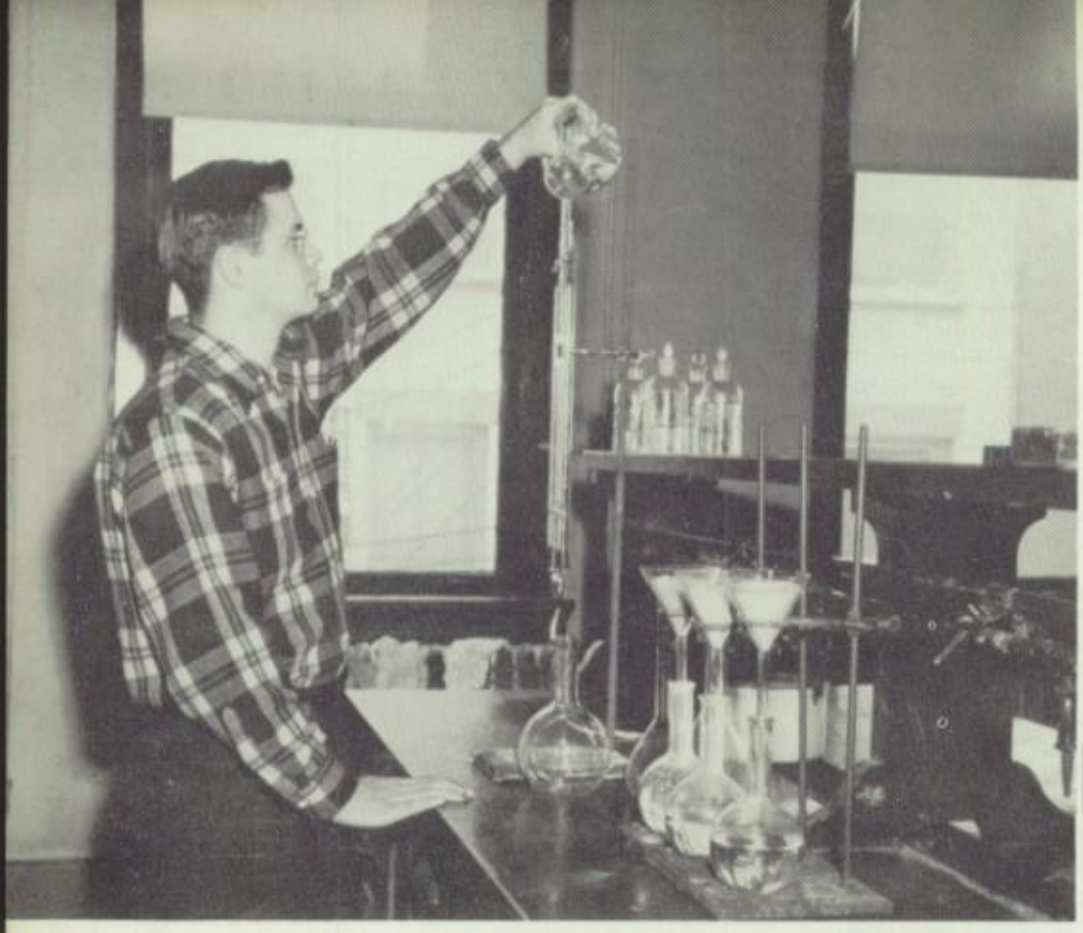
Destruction! Complete and horrible yet strangely beautiful with a unique and awe-some beauty. This is the symbol of our age—the age of the atom. It is a new age, not much older than most of us. We were babies together; both of us ushered into life about the time of Pearl Harbor. When you and I first faced the world in a schoolroom, the atom was making its first public appearance at Hiroshima. A few more weeks yet and we will enter the strange and complicated world of adults. We shall have to draw on untried resources and potentials if we are to make our way in this world, but we will not be the only ones setting out anew. The atom too is entering a new phase of its existance, for with the help of the scientists we will embark on another long journey into the mysteries of iife in our universe. Who can say what will come out of this new Geophysical Year, or what its findings will mean to us, as adults. There is no doubt that in the future, we too, will have cause to say "Thank you" to the teachers who have helped us to study the past, keep up with the present, and plan for the future.



Science

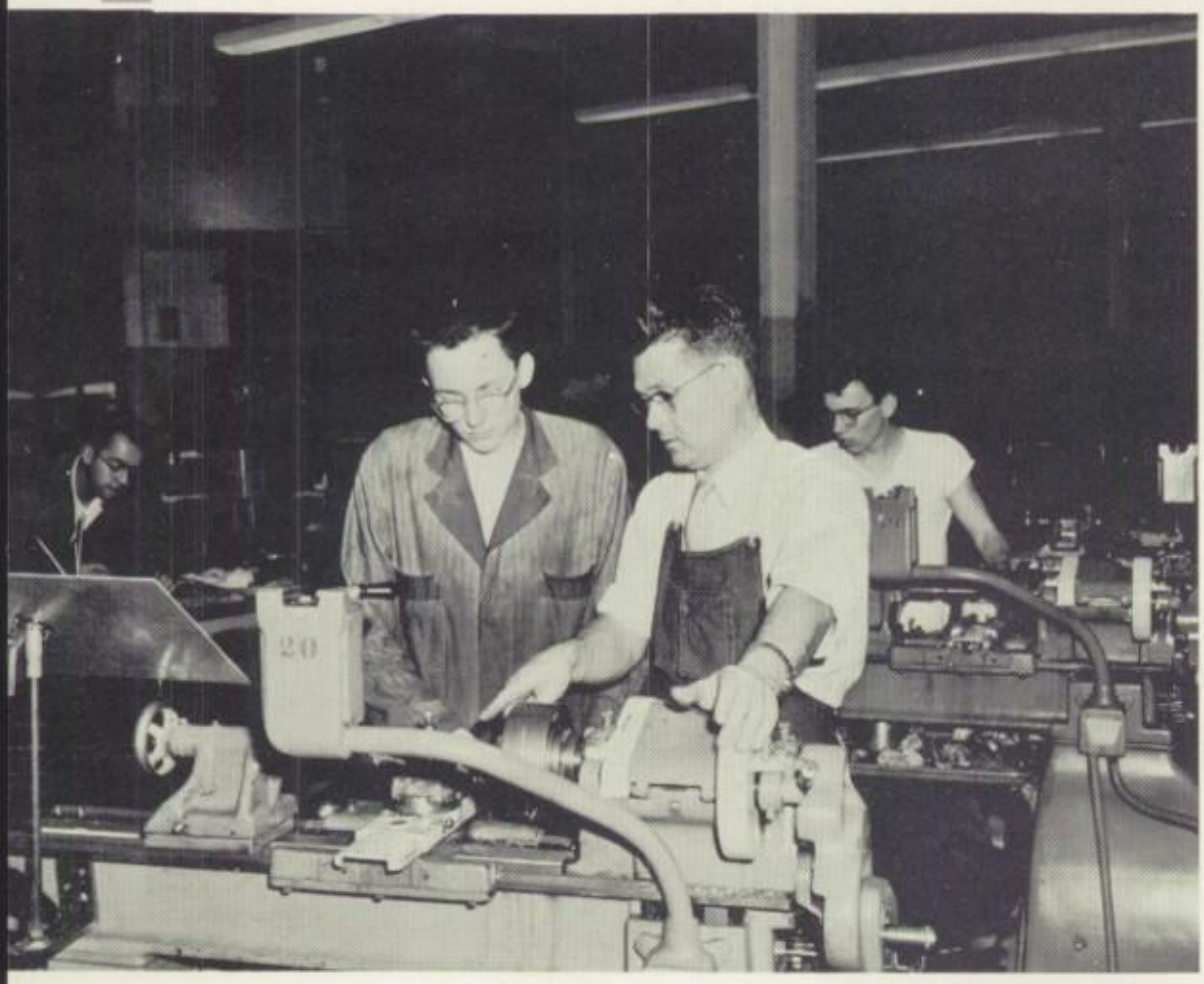
In Chemistry our students learn the fundamentals of the science of composition and transformation of substances. Here Henry Spang experiments with the electrolysis of water.

In Physics our students study the laws of mechanics, heat, light, sound, and electricity. Here Jane Pycraft does the impossible. Doing an experiment under the direction of Mr. Freshwater, she solders metal to glass, and other previously unsolderable material.

In Biology our students get a glimpse into the origin, development, functions, and structure of plants and animals. Here our students are dissecting frogs.

Other Subjects

These girls are assimilating skills in an office practice class which will carry them into the working world after their graduation. Here they learn the uses of various business machines as well as perfecting their basic typing and filing skills.



In machine shop students learn the fundamentals of operating a lathe. Mr. Wasiloff is demonstrating to Bob Nayalinski how to make a thread.

In family relations, girls prepare for a better future. They learn techniques in managing and taking care of families. Here, under the guidance of Mrs. Beckwith they discuss problems which they someday may encounter.

Of all the knowledge handed out each year in Lorain High School there is none which the student will use more throughout his life than that which he gains in his English classes. Here a Junior English class studies the fundamentals of communication.

Mr. Walker shows his art class a sample of modern art. Art classes help to develop the cultural abilities among our students which may make them more successful in later years.

The Student Council of Lorain High gives its members and all the students a chance to put democracy to work. They meet once a week and undertake the discussion and solution of all the problems which fall under their jurisdiction. Some of the projects discussed are dances, concession stands, charity drives, and many more.

Here Ken Schobel discusses the advisability of securing a robot as a mascot for our basketball games.

The National Honor Society was organized in 1922 upon securing their charter. Acceptance in N.H.S. is a much desired goal of Lorain High School students. Their purpose is this: The purpose of the organization shall be to create an enthusiasm for scholarship, to stimulate a desire to render service, promote leadership and develop character in American students.

Membership in this society is limited to students in the upper third of their graduating class scholastically and who excel in Character, Leadership, and Service. No more than fifteen per cent of the graduating class can become members. Twice a year new members are inducted at a ceremony held for parents and friends.

The A Cappella Choir

Mr. Howard Hansen, Director

This year the A Cappella Choir performed the "Firefly" which was the 36th annual operetta. In the Christmas Concert, the choir presented among other things, the "Song of Christmas." this Choir was the clinic choir at the Oberlin Conservatory of Music under the direction of Dr. Robert Fountain. For Easter the Choir sang two Lenten Cantatas. Lorain High School was host to the Buckeye Conference choirs. In addition to these activities the Choir put on many other performances and represented their school and community in the highest possible manner.

Officers

Judy Werner, treasurer; Bill Wickens, Vice-President; Doug Nichols, President; and Maxine Falkowski, secretary, are the elected officers of A Cappella Choir. They serve the choir in many ways and are a great deal of help to Mr. Hansen. These four people are fine and upstanding and represent the choir with ability and devotion.

Student Council

The student government body of Lorain High School is composed of student representatives selected from all school organizations and homerooms, or on the basis of scholarship. The council packs baskets for needy families, sponsors a hard times dance and a spring dance and deals with the many suggestions and problems which are brought before it. The 90 member organization is headed by a staff of five officers elected each year. Much credit must also be given to Mr. Jones, who serves very ably as advisor or to the Student Council.

Officers 1956-1957

The Chess Club is one of our newer and growing organizations at Lorain High School. Here amidst the jovial companionship and chatter of the kibetsers, antagonists meet over the chess board to match wits. Bishops, Queens and Knights tremble before the onslaught of the two masterminds at work. But it is all in fun and we learn in the process.

Football Queen

Each year the members of the varsity football team vote for a football queen. This year they chose Judy Werner, a member of the 1957-B class, as the Homecoming Queen. Judy has been very active in school, which contributed to her popularity among the players. She is a member of Student Council, FTA, and A Cappella Choirs. She displayed her interest in sports by joining the newly formed Pep Club and being elected as its President for the 2nd semester. Her attendants were Janet Sheridan and Jo Ann Klekota from the class of 1957-A. The queen is announced each year at the annual Emanon Queen Dance.

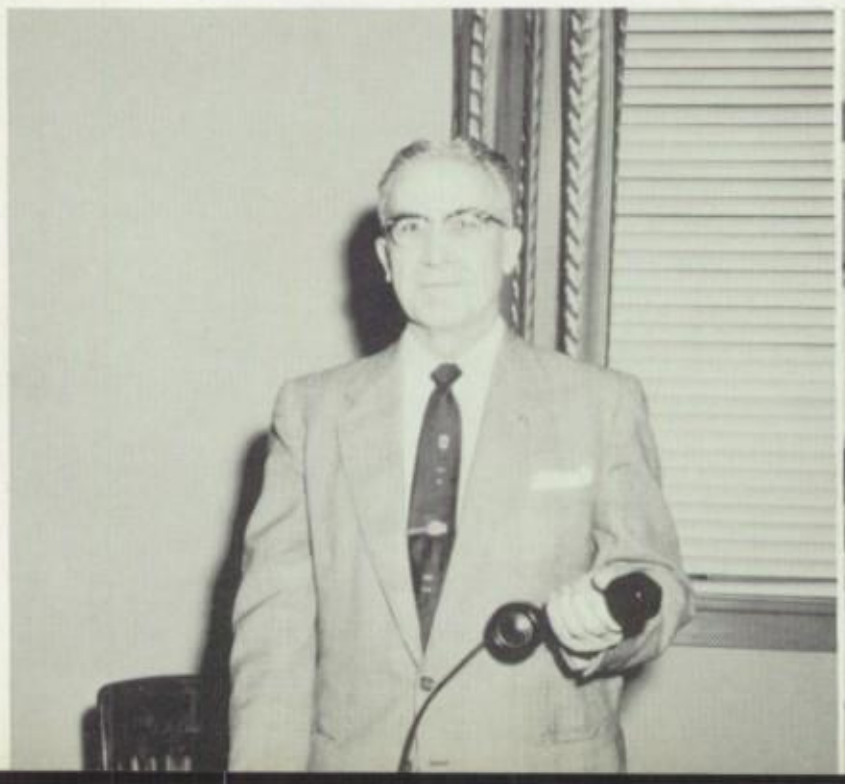
The Board of Education

The growth of the city of Lorain has been marked in many ways. One of the finest additions to our comminity has been the new schools that have recently been built and set into operation. Responsibility for this falls on the Lorain Board of Education which has performed its duties so creditably.

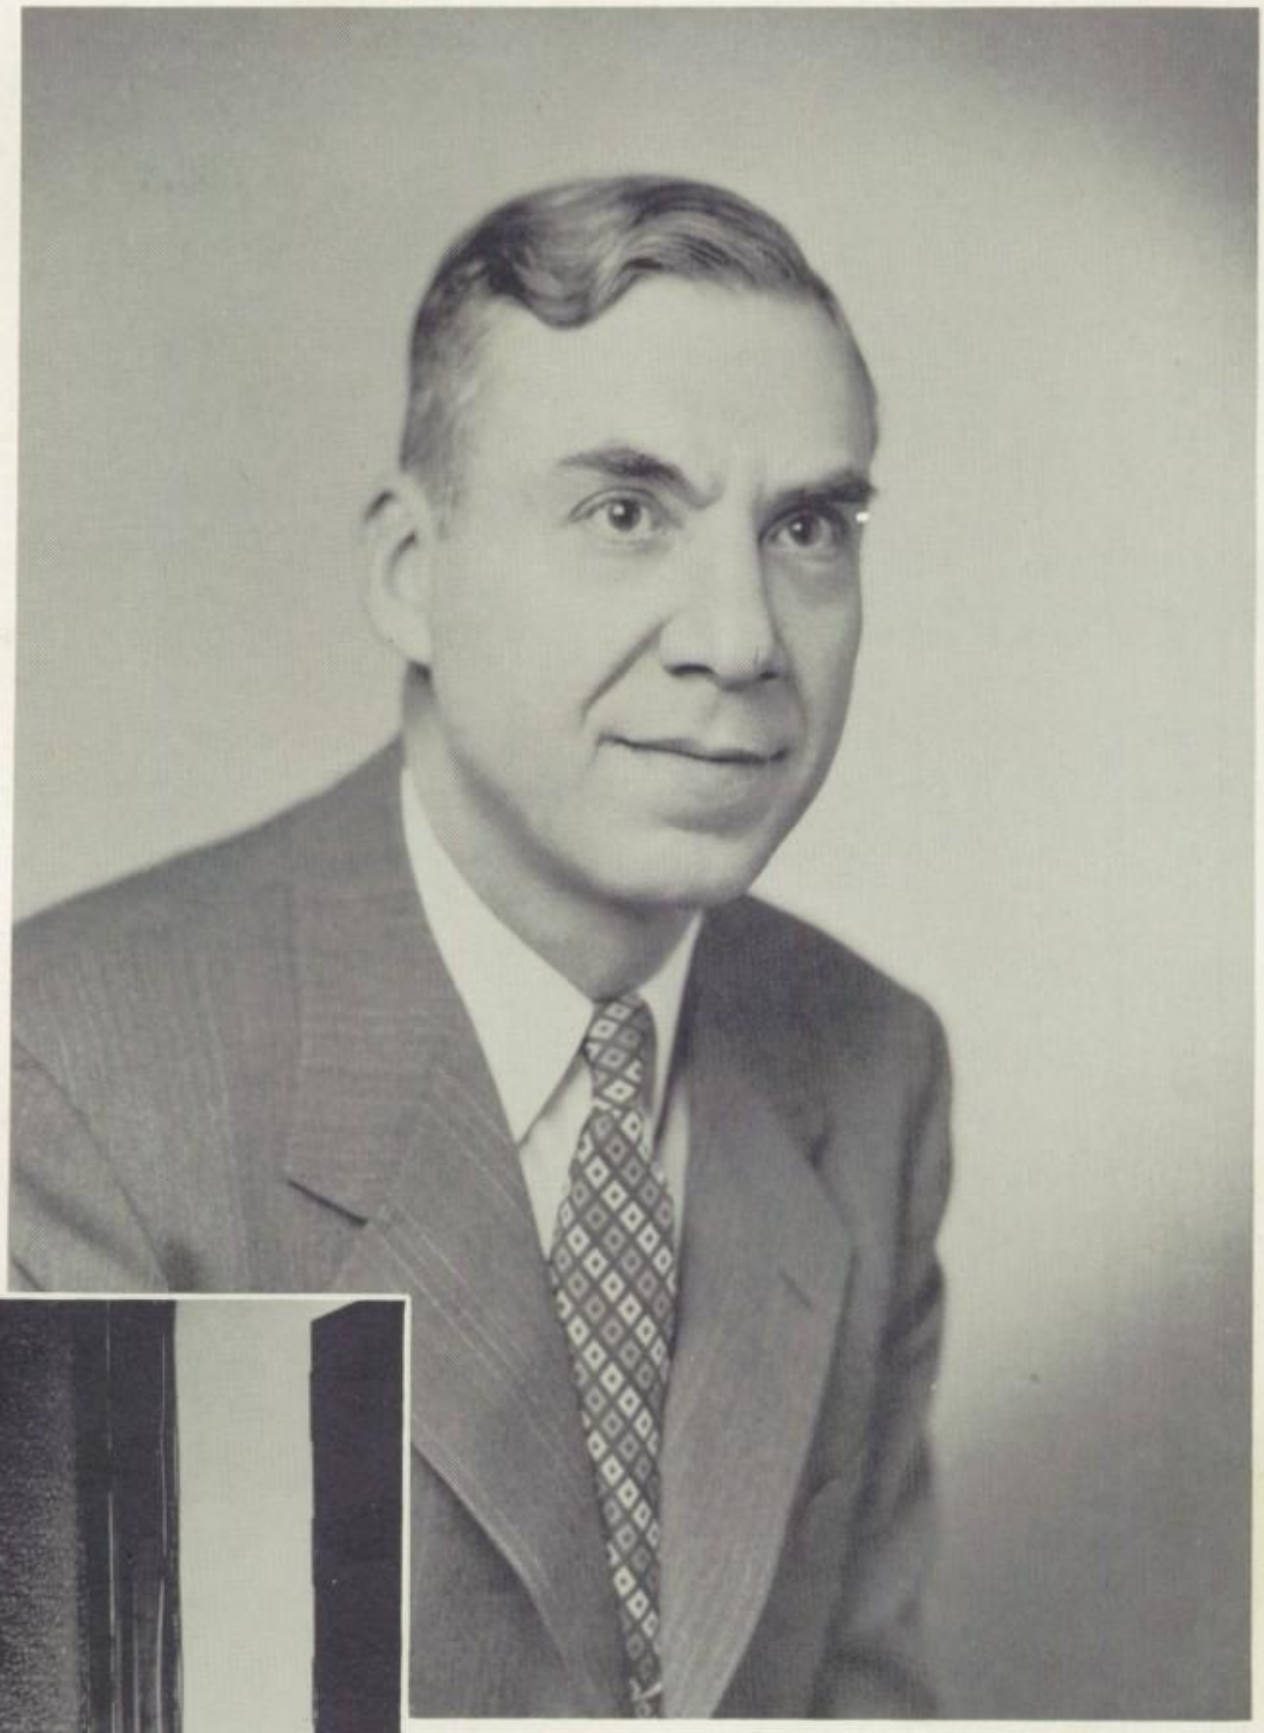
Our superintendent of Lorain Public Schools is Mr. John W. Evans. The saying that a school system is "No better than its superintendent" must be true. For our excellent school system is headed by this outstanding administrator. He is in charge of the supervision and administration of the school system and is the professional leader of the teaching staff. Under his leadership, Lorain Public Schools have become outstanding in Ohio.

Mr. Joseph Calta is in his third year as director of Secondary Education. Mr. Calta is a familiar face among all the students at L. H. S. He conveys his interest in us by attending banquets, concerts, dances, and other school activities.



Principal

Completing his third year as principal of Lorain High School is Mr. Ralph J. Holder. Mr. Holder attended Lorain High School and Oberlin College, where he received his Bachelor of Arts and Master's Degrees. His administrative duties began as principal of Boone and Harrison schools and later of Hawthorne. His is the responsibility of striving to maintain high standards for Lorain High School and insure the type of school atmosphere that will build higher ideals of citizenship and character in its students.



Assistant Principal

Mr. Emerson Lindamood is completing his third year as assistant principal. Prior to assuming his present responsibilities he taught social studies and was editorial advisor of the Scimitar and Hi Standard. He also taught in Delaware County and at the Ohio State University.

Mr. Lindamood believes teaching, whether in the home, school, or church is one of the fundamentals of our civilization and is the foundation of continued progress. He finds that school work is challenging and rewarding as a vocation, and the extra-curricular activities an interesting avocation.

Dr. KRUPP

Mr. CINNIGAR

NURSE RACHEL McDANIEL

Mr. DANIEL

Mr. Edward Cinniger, full time attendance officer at Lorain High School, handles all routine matters in regard to excuses for absences, early dismissals, punishment for truancy, and detention hall operation.

Mr. George Daniel, our Director of Athletics, shows his interest in the youth of Lorain by his plans for the physical education programs of our schools, arranging the athletic schedules, and balancing the athletic budgets.

Dean of Girls

Former English and history teacher, advisor to the Emanon Tri-Hi-Y club, and at the present Dean of Girls, Mrs. Dev Mehlow is the guiding hand for the hundreds of girls that pass through Lorian High School. Hers is the arduous task of helping these girls through three years of academic scheduling and giving wise counsel to the many problems which are laid before her.

Dean of Boys

Mr. Harold Jones, Dean of Boys, serves in the capacity of scholastic counselor and vocational counselor and general "problem-solver-in chief" for the boys of Lorain High School. Besides his duties in this capacity, he is also faculty advisor to the Lorain High School Student Council. Despite the numerous obligations which he must meet, Mr. Jones is never too busy to deal with the students themselves and any problem set before him always meets with sympathetic assistance.

Sophomore Dean

Mr. Richard Ackerman is the man who is ready and willing to give competent guidance to all Sophomores who come to Lorain High School. So many phases of High School life are new to these students and Mr. Ackerman assists them in the important task of the proper organization of studies and activities.

We would like to thank the following people for their assistance in helping us put out this yearbook.
Mr. Robert Everitt: who took pictures of the faculty and most of our action shots.
Mr. Donald Davis: who took class pictures.
Bob Harold: who took pictures of student activities.
George Kuebler: who took pictures of the Senior A prom.
The Lorain Journal; who took many of our sports pictures.
The United Press: who gave us the picture of the atom bomb.

Education is an asset of great value. It is acquired only through painful study and experience — To a degree it is an intangible asset, but the satisfaction *one receives from knowledge is far greater than the dollar and cents value. The CITY BANK Co. has assisted many parents in providing advanced education for their children. We believe we can be of assistance to you and your family too.*
